The Shrinking Bar

The one chart that moves the way a balance moves. Color from the right, and where the color stops is what you owe.

Starting balance divided by 50. That is one column: $ _____

Color from the right-hand end inward.

Each column is 2% of what you owed on the day you printed this.

Where the color stops is your balance, and you read it off the scale above.
Every other chart in this pack fills upward. This one empties, the way a balance does.

One column is worth

$ _____

Starting balance

_____

Debt free

_____
